Founded in 1945 in Normandy France, 17 farmers joined their expertise in the collection of the butter that they all produced. Gradually the cooperative expanded into the collection of dairy cream and eventually pasteurised butter. Today **Elle & Vire** manufactures and markets cream, butter, yoghurt and UHT desserts in France, and distributes product across the world under the **Elle & Vire** brand. The brand is known to over 80% of the French population and is consumed by nearly 6 in 10 French people. **Elle & Vire** products are carefully developed with the help of professional chefs to ensure they meet the performance expectations of both pastry and kitchen chefs.

ITALIAN PASTA – LONG

Granoro pasta is known for its high quality, which is attributed to the passion, great care and attention given to every stage of the production process; merging old traditions with modern technologies. Granoro pasta has an intense fragrance, with the typical golden colour of durum wheat, and the correct thickness to allow for a balanced and uniform cooking time to ensure an elastic and callous texture once cooked. This is due to the careful selection of semolina and high quality of gluten.
